<b>APPLICATION</b>	PCR Test Prescription	
<b>VERSION</b>	1	
<b>DATE ACCEPTATION</b>		
<b>DATE PRODUCTION</b>		

## 2. New Features

N/A

## 3. Changed Features

### 3.1. SMS handling

#### 3.1.1. Adaptation of the management of fixed telephone numbers in order to optimize the metrics of SMS sending

When the phone number has been identified as being a Belgian landline number, the result of the parsing of the source phone number is no longer entered in the "phone\_number" and "phone\_number\_2" fields. This will make it possible to distinguish Belgian fixed numbers from other numbers in terms of metrics.

#### 3.1.2. Extension of the sending of sms to foreign numbers

When the phone number has not been identified as a Belgian phone number (mobile or landline), the phone number is sent to the RingRing service and an SMS will be sent to this number.

#### 3.1.3. Improved management of 2 phone numbers per prescription

When a prescription contains 2 telephone numbers, RingRing service returns were not systematically recorded in the "prescription" database. This release note contains an improvement to systematically record each return of the RingRing service.

### 3.2. Webapp usability

#### 3.2.1. Mark the test - add an informative text for the user

Informative text has been added under the heading "search results" to draw the user's attention to flagging the test.

### Résultats ×

**i** Si le citoyen est effectivement présent pour recevoir ou réaliser un test, veuillez l'indiquer en cliquant sur le bouton "Marquer comme distribué/réalisé".

Code prescription	ABCD 0000 0000 0003	<a href="#">Marquer comme distribué/réalisé</a>
Nom	John Doe	
N° registre national	90.00.00-123.45	
N° de téléphone	+32499123xx +32499123yy	
Date de création	27 avril 2020	

### 3.2.2. Record the consultation of a prescription

The system will record the date and time when a prescription was found following a search for prescription code or national registry number in the "prescription" database. This will provide a view of the use of the system.
