XXXXXXXX-XXXXXX	20 janvier 2021	3 février 2021
XXXXXXXX-XXXXXX	4 février 2021	11 février 2021

Fermer

2.2. Reason high risk contact generates 2 CTPC codes

The new test strategy specifies that people who had a high risk contact must first be tested right away and, second, be tested 7 days after moment of the high risk contact.

CTPC generates now 2 CTPC codes when high risk contact reason is selected:

1. A CTPC code valid directly
2. A CTPC code valid 7 days after the moment of the high risk contact

The validity period is displayed in the popup after the creation (see change 2.1).
