## API Documentation

- ACC : <https://portal-acpt.api.ehealth.fgov.be/>
- PROD : <https://portal.api.ehealth.fgov.be/>

# 2. Updated features

## 2.1. Documentation improvements

Documentation has been improved.

## 3. New features

### 3.1. Search test results

A new method has been added: `prescriptionCodes/searchTestResults`

This method retrieves all test results of a person (through ssin search).

Available information:

- `testResult`
- `resultDate`

More information will be available in later releases.

### 3.2. Sending email

When an email is specified at the creation of a CTPC code, an email is now sent to the specified email address. See backend release note 3.21.0.

A new parameter has been added: `skipEmailSending`

This parameter, when set to true, will skip the sending of the email.

It is available for methods:

- `POST /prescriptionCodes`
- `PUT /prescriptionCodes/{code}`
