- PROD : <https://portal.api.ehealth.fgov.be/>

2. Updated features

2.1. Business rules modifications

2.1.1. Automatic activation

When a person is created, his vaccination code is now directly activated.

2.1.2. Activate By Ssin

Following a business decision, the source "GP" can no longer activate vaccination codes.

2.1.3. Exception for Johnson&Johnson

The J&J vaccine is given to people aged 41 and over. Other people can now decide to receive this vaccine on a voluntary basis. This exception is given to VCD by the last minute booking tool.

The last minute booking tool can give to VCD this exception by calling a new method. This method takes two parameters :

- The ssin
- The vaccine manufacturer (only J&J vaccine for now "JANSSEN_PHARMACEUTICA")

Another new method has been created to delete this exception in the VCD database.

This information is returned by the method checking the eligibility to the last minute booking.
